

Fourth year presentation format: Physical chemistry

Written component: Thesis outline (template on the next page) given to the committee three days before the meeting.

Oral component: A presentation with a maximum duration of 10 minutes to the faculty committee, followed by a discussion.

The presentation should provide a brief summary of the research done and a plan of what the student needs to do in order to complete the degree, including a tentative time-line.

Plan after Graduation:

Advisor:

Committee Members:

Preliminary Thesis Title:

Chapter 1: Write Preliminary Chapter Title

Research Progress: (List major experiments that are incomplete. Write “Completed” if all experiments regarding this chapter are completed.)

Anticipated Project Completion Date:

Anticipated Completion Date for Writing:

Chapter 2: Write Preliminary Chapter Title

Research Progress: (List major experiments that are incomplete. Write “Completed” if all experiments regarding this chapter are completed)

Anticipated Project Completion Date:

Anticipated Completion Date for Writing:

Chapter 3: Write Preliminary Chapter Title

Research Progress: (List major experiments that are incomplete. Write “Completed” if all experiments regarding this chapter are completed)

Anticipated Project Completion Date:

Anticipated Completion Date for Writing:

Add more Chapters if necessary.
