

SPECIAL ANALYTICAL SEMINARS

Date: Thursday, April 21, 2016

Time: 12:15 pm, 1315 Chemistry

Alicia Richards

UW Madison, Coon research group

“Near Complete Sequencing of the
Human Proteome”

and

Erin Gemperline

UW Madison, Li research group

“Mass Spectrometry Imaging Reveals a Diversity of
Chemical Response to Pathogen Exposure in the Co-
evolved Fungus-growing ant/*Pseudonocardia*
Symbiotic System

This award is given in honor of Dr. Gary Parr who did his Ph.D. with Professor Jim Taylor and many years later was a post-doc with Professor Lloyd Smith, working in the area of mass spectrometry. Gary died unexpectedly in May, 1993, while working in the Smith group. Professor Smith worked with Gary's family to set up a fund in his memory at the UW Foundation, and we have arranged that this award will be given to an outstanding graduate student(s) working in the area of bioanalytical or biological chemistry.
