

# Prof. Takeshi Abe

Dept. of Energy & Hydrocarbon Chemistry  
Kyoto University

## Special Materials Seminar

Wednesday, June 17<sup>th</sup> at 3:30 p.m.

Room 1315 Chemistry

### “Beyond Lithium-ion Batteries”

Dr. Abe is one of the world's leading experts in lithium-ion batteries and electrolytes. He has published nearly 200 papers in the field of energy storage and is an editor of the journal *Power Sources*.

Professor Abe will discuss the present and future state of rechargeable energy sources, and the fundamental and practical factors which control future developments in this field.
