

\*\*\*MOVED TO EBLING SYMPOSIUM CENTER\*\*\*

# Chemistry Biology Interface

## Training Program

### Symposium on July 21, 2011

\*\*\*MOVED TO EBLING SYMPOSIUM CENTER\*\*\*

- |           |   |
|-----------|---|
| 1:00-1:15 | Prof. Laura Kiessling: Welcome  |
| 1:15-1:55 | Prof. Judith Burstyn: "The Enigmatic Heme of Cystathionine Beta-Synthase"                                 |
| 1:55-2:35 | Prof. Doug Weibel: "Cell wall curvature as an organizing principle for biomolecules in bacterial cells"   |
| 2:45-3:25 | Prof. Brian Pfeger: "Metabolic engineering towards sustainable production of fatty acid derived products" |
| 3:25-4:05 | Prof. Patricia Kiley: "Global regulation by iron dependent transcription factors in Escherichia coli"     |
| 4:05-4:45 | Prof. Ron Raines: "Ribonuclease A: From $k_{cat}/K_M$ to the Clinic"                                      |
| 4:45-6:00 | Poster Session/Reception sponsored by Sigma-Aldrich   |
