

Organic Chemistry Seminar

Prof. Jon Njardarson
Cornell University

Tuesday, April 7, 2009, 3:30 p.m.
Room 1315 Chemistry

Natural Products and New Synthetic Methods

Our research group is focused on the development of new useful synthetic methods and the total synthesis of complex natural products with appealing biological functions. Two case studies, representing each one of these research areas, will be presented along with a small preview of other ongoing programs.
