

McElvain Seminar

The Division of Organic Chemistry presents

Dr. Sarah Kelly

Pfizer Inc .

Research based Pharmaceuticals: Challenges, Changes and Opportunities

Sarah E. Kelly is Vice President of the Research Science & Technology Group in Pharmaceutical Sciences at Pfizer Inc in Groton, Connecticut where she provides global leadership for RS&T colleagues located in Groton, La Jolla and Sandwich, UK). Sarah's role is to manage the Research Unit interface on behalf of World Wide Pharmaceutical Science by providing formulations, chemistry and analytical scientific expertise from Lead Development to POC. Key focus areas for the RS&T group are to assist Research in its Speed goals for the portfolio and to provide expert scientific consultants to Research Project teams.
